

CP 012

Antistatic Cleaner

CP 012 Antistatic Cleaner is meant for preparing polymer materials prior to coating.

The product removes oil from surfaces, cleans them of silicone and changes the surface tension to prevent electrostatic charges, which are the main reason why dust appears on polymer elements.

Recommended for glass and polymer surfaces.

Unit	Packaging	Collective (box)
500 ml		11 pcs

Soak the cleaning cloth and wipe the surface immediately before painting.

Estimated evaporation time in 20°C, relative humidity 65%: ~1 min.

Date of minimum durability:

24 months (in the original unopened package)

The recipe of the product complies with the VOC guidelines. The products supplied by our company are subject to a number of factory tests, so they can meet the highest demands. However, be aware of the individual conditions of storage, preparation and applications that can influence on the effect of varnishing. The guarantee to keep the highest quality of the coating is to use the product only with the products of the Manufacturer and in accordance with the recommendations of the Manufacturer.
